

Research Ethics for All:
**Accessible Research Ethics Education for Community
Research Partners**

Training Comparison

Content	CITI Social-Behavioral-Educational and Biomedical	<i>Research Ethics for All</i>
History and Ethics	✓	✓
Introduction to scientific research, including societal benefits	✓	✓
Human Subjects Research	✓	✓
Defining research ethics	✓	✓
Federal Laws and Regulations: The Common Rule	✓	✓
Institutional Review Board (IRBs)	✓	✓
Risks in social-behavioral-educational research	✓	✓
Risks in behavioral and biomedical clinical research (including genetic research)	✓	✓
Safeguards: Preventing and mitigating risks	✓	✓
Certificates of Confidentiality	✓	✓
Consent: Informed, Voluntary, Ongoing	✓	✓
Consent capacity	✓	✓
Assent and Legally Authorized Representatives (LARs)	✓	✓
Privacy and Confidentiality	✓	✓
Research with prisoners	✓	
Research with children	✓	✓
Research in schools	✓	
International research	✓	
Internet-based research	✓	✓
Unanticipated problems and adverse events	✓	✓
Data Safety Monitoring Boards and Committees	✓	✓

Content	CITI Social-Behavioral-Educational and Biomedical	<i>Research Ethics for All</i>
(DSMBs/DSMCs)		
Mandatory reporting	✓	✓
Research with workers/employees		
Research with individuals with questionable consent capacity	✓	✓
Vulnerability in research	✓	✓
Conflicts of interest (including financial)	✓	✓
Records-based research: HIPAA and FERPA	✓	✓
Data sharing	✓	✓
Return of personal health results	✓	✓
Belmont Principles	✓	✓
Research with pregnant people, fetuses and neonates	✓	
Group harms	✓	✓
FDA Regulations	✓	✓
Eligibility	✓	✓
Recruitment	✓	✓
Using IRB approved research materials	✓	✓
Deception	✓	✓
Using AI in research	✓	✓
Authorship	✓	✓
Safety of community research partners	✓	✓
